

## EYFS Woolton Primary School

### Intent, Implementation and Impact Statement September 2022

The Statutory framework for the Early Years Foundation Stage sets the standards for learning, development and care for children from birth to 5 years.

#### Intent

Our curriculum is designed to recognise children's prior learning, from both previous settings and their experiences at home. We work in partnership with parents, carers and other settings to provide the best possible start at Woolton Primary School, ensuring each individual reaches their full potential from their various starting points.

Our curriculum has been designed to enable children to succeed through cooperative and collaborative learning principles. As such, there is a strong emphasis on the Prime Areas of learning; Personal, Social and Emotional Development and Communication and Language, including oracy.

At Woolton Primary School, we recognise that oracy not only improves academic outcomes, but is a life skill to ensure success beyond school, in life and future employment. Oracy develops children's thinking and understanding, which in turn promotes self-confidence, resilience and empathy which support the child's well-being. Our enabling environments and warm, skilful adult interactions support the children as they begin to link learning to their play and exploration right from the start.

We believe that high level engagement ensures high level attainment. We therefore provide an engaging curriculum that maximises opportunities for meaningful cross-curricular links and learning experiences, as well as promoting the unique child by offering extended periods of play and sustained thinking. We following children's interests and ideas to foster a lifelong love of learning both in and outside of school.

By the end of the Reception year, our intent is to ensure that all children make at least good progress from their starting points are equipped with the skills and knowledge to have a smooth transition into Year 1.

#### Implementation

Each half term, EYFS staff introduce a new theme to provide inspiration for learning, whilst providing the flexibility for children to follow their own interests and ideas. Children learn through a balance of child-initiated and adult-directed activities. The timetable is carefully structured so that children have directed teaching during the day. The timetable changes throughout the year to take into consideration the changing needs of the children. These sessions are followed by small focused group work. This means the teacher can systematically check for understanding, identify and respond to misconceptions quickly and provide real-time verbal feedback which results in a strong impact on the acquisition of new learning.

Children are provided with plenty of time to engage in 'exploration' throughout the variety of experiences carefully planned to engage and challenge them in the provision. The curriculum is planned for the inside and outside classrooms and equal importance is given to learning in both areas.

## Literacy and Phonics

Reading is at the heart of our curriculum and our aim is to encourage a love of reading right from the start.

In Nursery children focus on Phase 1 Letters and Sounds which concentrates on developing children's speaking and listening skills and lays the foundations for the phonic work which starts in the spring term with the introduction of the Read, Write Inc. (RWI) phonics programme. The emphasis during Phase 1 is to get children attuned to the sounds around them and ready to begin developing oral blending and segmenting skills, prior to GPC.

In Reception, children are taught phonics on a daily basis from week 3 (the first full week in school). They follow the RWI phonics programme where they will develop GPC and segmenting and blending skills to decode words. Children are encouraged to read at home and are listened to regularly in school. They are given books that match their phonic knowledge in order for them to apply their learning with the aim of becoming successful, confident and fluent readers. Children are encouraged to read at home and work towards achieving the Rainbow Reader award for showing effort and improvement in reading.

## Mathematics

In Reception, we use the White Rose Maths Scheme of work which is divided into 3 weekly units and NCETM Mastering number programme. High quality learning environments and meaningful interactions with adults, support children in developing mathematical thinking and discussion. Pupils learn through games and tasks using concrete manipulatives and pictorial structures and representations which are then rehearsed applied and recorded within their own child-led exploration. Children in Reception have a daily maths session to develop fluency, revisit key concepts and address misconceptions.

In Nursery, children develop a love of maths through games, songs, rhymes, and play using concrete manipulatives. There is a focus on the following counting principles; one to one correspondence, stable order and cardinal principle. Children's fine manipulative skills are a focus to develop 1-1 correspondence so children count each object only once.

## Wider Curriculum

Our wider curriculum is taught through the learning areas; 'Understanding of the World' and 'Expressive Arts and Design.' EYFS staff have a good understanding of how ELG's feed into the National Curriculum through our robust planning and CPD opportunities. In reverse, colleagues throughout the school are also aware of the key ELG's that link to each foundation subject and the progression of the subject.

Exciting, purposeful and contextual activities are planned to build on children's natural curiosity. For example, building a boat for their favourite toy enables them to think like a 'Scientist' and 'Engineer' as they explore a range of materials and test out their own ideas.

Building further on our oracy focus, children will be encouraged to employ subject specific language and terminology in foundation subjects, and such vocabulary will be modelled, both verbally and orally, by supporting practitioners.

Our inclusive approach means that all children learn together, but we have a range of additional intervention and support for children who may not be reaching their potential, or are showing a greater depth of understanding and need further challenge. This includes, for example, sessions for developing speech and language, social skills, fine motor skills, phonics, and mathematics. In addition, for our SEND pupils, where bespoke plans have identified that learning may need to take place away from the classroom due to sensory needs.

Regular monitoring of teaching and learning by SLT and the EYFS lead ensure staff develop good subject knowledge. The EYFS lead ensures staff receive CPD specific to Early Years to develop their practice. For example, we offer CPD on Phonics, reading with children, role of the adult in EYFS and Developing vocabulary in EYFS.

### Impact

#### Baseline:

Prior to children starting, staff spend time speaking to the child's parents, previous settings and read previous learning journey's to gain an understanding of the whole child and where they are at. During the first half term in Nursery or Reception, all staff use ongoing assessments, observations and conversations with the child to develop a baseline assessment. This identifies each individual's starting points in all areas so we can plan experiences to ensure progress. The following baseline assessments are also carried out.

#### The RBA (Statutory Reception Baseline Assessment)

This assessment focuses on 'Language, Communication and Literacy,' and 'Mathematics.' The purpose of this is to show the progress children make from Reception until the end of KS2. WellComm is a language based oral language intervention for children who show weakness in their oral language skills and who are therefore at risk of experiencing difficulty with reading. The assessment informs us if the child is at expected for their age or requires intervention from trained WellComm practitioner.

#### Ongoing Observation:

All ongoing observations are used to inform weekly planning and identify children's next steps. This formative assessment does not involve prolonged periods of time away from the children and excessive paper work. Practitioners draw on their knowledge of the child and their own expert professional judgements through discussions with other practitioners, photographs and physical examples such as a child's drawing / making.

Class teachers share observations of children and current learning via the Google Classroom and examples kept in individual files.

#### Assessment:

Phonic assessments are carried out using the RWI Phonics tracking document every half term to quickly identify pupils that are not making expected progress. Our aim is for children to 'keep up' rather than 'catch up' where possible. Assessments are completed each term and progress the children have made is shared at parents' evening meetings.

In Summer Term 2, the EYFSP is completed where teacher judge whether the child has met each of the 17 ELG's. They will be assessed as either 'emerging' or 'expected.' Whilst there is no judgement

to state if a child is exceeding beyond an ELG, teachers, have a duty to provide a narrative for both parents and the Year 1 teacher.

Impact is also evident through our successful transitions into Year 1. EYFS staff have a good understanding of how ELG's link to the National Curriculum, and through our robust planning and delivery across the spectrum of subjects – both core and foundation - children leave the EYFS stage with the skills, knowledge and confidence to continue their journey as scientists, historians, artists and geographers.
