

2018 KS2

From 2016 KS1 to KS2 progress is calculated differently than previously. The national average progress is zero. Over 95% of schools have progress measures between -5 and +5. The Government's minimum requirement for schools, known as The Floor Target, requires schools to have a progress measure of at least -5 in Reading, -7 in Writing and -5 in Maths. You can see that WPS is comfortably above this target. More detailed information about KS2 Accountability Measures and KS1-2 progress can be found here- <https://www.gov.uk/government/publications/primary-school-accountability>.
